

Swallow Class

Spring Term 2019

Firstly, I would like to wish everyone a Happy New Year. January and the rest of the spring term is really busy for us in Year 6 as we begin our preparations for our journeys moving forward.

This term is extremely important for Swallow class. We have already had a fantastic first few weeks back and everyone is focussed and working hard.

In English we have already begun learning about our new text 'Hetty's Unicorn' and we will be aiming to write our own historical/fantasy text within the next week or so.

PE

Lessons are on a Monday and Friday but everyone should have kits each day.

In maths we look at fractions, decimals, percentages and ratio. We will also revisit areas of learning to secure any areas that we may struggle with.

In RE we start Revelations and how God can be seen through the Bible.

We are working hard on our Act of Worships to try and find peace.

Science will focus on Classification.

Due to focussing on our SATS, humanities will be short burst activities which introduces the children to map work and how we could identify where in the world we are, as well as different features on a map.

Letters coming home will have important information in so please check bags.

Homework

Homework will now include a set of GAPS and Maths homework weekly. This is given out on a Thursday/Friday and should be returned on a Thursday morning. It is really important that everyone completes the tasks given so that we can get the practise in that is needed.

We have begun reading in the mornings which is working really well! Lessons start promptly from 8:50 so please make sure you are in on time!

I am available to contact through Class Dojo and on the phone through the school office for any questions.

I look forward to the rest of the term.

Thanks for your continued support,

Miss Newcombe
