

Dear Parents and carers

**Provision for children who are self-isolating:**

For those families self-isolating, below is a list of activities you can do to support your child with their learning at home.

- Daily reading and book talk (reading with and to your child)
- Learning times tables up to 12 x 12
- Learning year group spellings and high frequency words – see website under home spellings
- Online learning platforms (please see school website under home learning)
- Learning to tell the time – analogue and digital
- Handling and counting money

There is no expectation that children will be having 5 hours a learning a day at home.

In the event of an extended school closure, teachers will be providing regular home learning tasks for children to complete. These will be posted on the school website under the class pages section.

For those of you with printer facilities at home there are some good work books available at:

[www.tts-group.co.uk/home+learning+activities.html](http://www.tts-group.co.uk/home+learning+activities.html)

Kind regards

Mr Meech
