

## RE work

Dear year 2 children

If you are struggling to follow the rules or do your online learning I'm here to help you. Always remember your teacher is still there to help. Try not to be tempted or distracted by anything or anyone. When you are asked a question, answer confidently and if you get anything wrong try again. It's okay to make mistakes sometimes. Keep any devices away so you can focus on your learning.

Never have people or things that will distract you around. You will always face temptation but just ignore it and carry on with what you're doing. Once you start working behave nicely and respect the people who help you.

Finally, make sure you're in a nice quiet place and have your mum or dad with you. Have a drink near you so if you get tired you can drink and work with more energy.

Hopefully this is useful,

Poppy (Y6)
